Frontend Developer with 3 years of experience building SaaS dashboards.

Skills

- React, JavaScript, TypeScript, Next.js, HTML, CSS
- Git, agile, communication, stakeholder management
- Basic Node.js and REST API integration

Experience

Frontend Developer, DesignDesk

- Built responsive dashboards for operations teams using React and TypeScript.
- Integrated REST APIs and improved search and filtering workflows.
- Worked closely with designers and customer success teams.

Projects

- Created a reusable component library for forms, tables, and charts.
- Improved application accessibility and reduced UI defects.
