Backend Engineer with 4 years of experience building data products and internal platforms.

Skills

- Python, Django, Flask, SQL, PostgreSQL, pandas, numpy
- REST API design, Git, Docker, testing, Linux
- Machine learning basics, scikit-learn, ETL, Airflow

Experience

Backend Engineer, InsightOps

- Built data ingestion APIs and reporting services used by analytics teams.
- Created Python pipelines for extracting and normalizing customer documents.
- Added unit and integration tests around API workflows.
- Partnered with product managers to translate requirements into technical plans.

Projects

- Built a classifier prototype with scikit-learn to categorize support tickets.
- Migrated SQLite prototypes to PostgreSQL for production usage.
